LEXMARK
TM

Digital monochrome MFP for departments

Why Lexmark?

Founded from an IBM heritage in Lexington, Kentucky, in 1991, Lexmark is one of the few American companies to own, develop and market inkjet, laser and color laser print technologies. As a long-term member of the Fortune 500, Lexmark is poised to deliver on its promise to produce quality, dependable products well into the future.

We listen to our customers and
we deliver solutions.
Raise your expectations, because
we are raising the bar.

Lexmark cares

When it comes to our planet, we know there is no substitute. We strive to provide industry-leading environmental practices that relate not only to our products, but also to everything we do, everywhere in the world. For more details on our environmental, health and safety practices, visit our website at www.lexmark.com.

Over **75 percent** of the world's top banks, retailers and pharmacies use Lexmark.

It's time to put Lexmark to work for you.

Printed on Recycled Paper

Easy

e-Task interface

The Lexmark e-Task interface is the entry point to your Lexmark multifunction device. It's a customizable touchscreen with capabilities for high-demand multitasking. The e-Task interface requires virtually no set-up or installation and can be easily integrated with your network.

Easy network management

Easy network management is accomplished by well-designed tools that facilitate device administration—streamlining workflow in daily business operations. We understand networks.

Lexmark MarkVision Professional provides network administrators with timesaving and easy-to-use print management applications.

The **Lexmark embedded web server** provides administrators access to embedded web pages in order to view, monitor and configure the multifunction device directly from the user's computer.

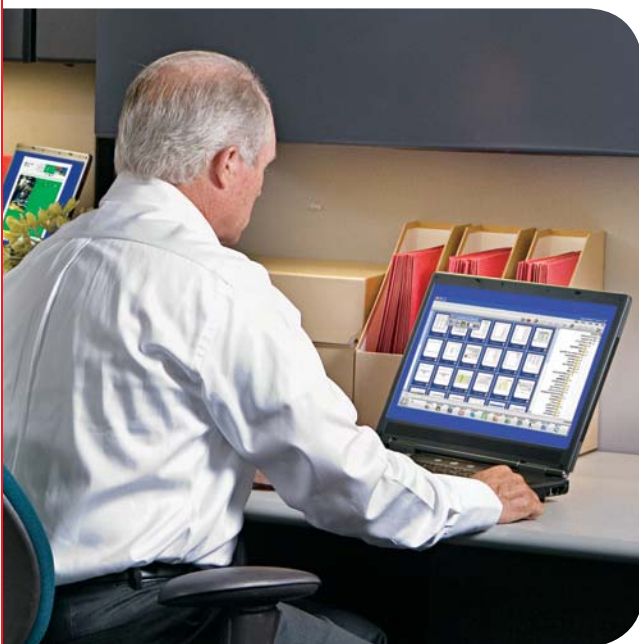

Work easier

Feature-rich

Lexmark multifunction devices come **fully featured** right out of the box. Aside from providing monochrome printing, copying, faxing and color scanning, our multifunction devices come standard with the following features:

- Scan preview
- Scan to e-mail
- Priority copy
- Print from and scan to USB drive
- Fax redirect

Lexmark keeps you secure

Lexmark's MFPs and printers support industry best practices for network device protection, and Lexmark's enhanced security features seamlessly help protect user data without sacrificing performance.

- Confidential print
- Operator panel lock
- Data encryption
- Hard disk wiping
- MFP lockout
- SNMPv3
- IPSEC
- IPV6
- Secure user authentication
- Secure LDAP over SSL
- HTTPS
- Physical locking capabilities (Kensington™)

Lexmark multifunction devices have achieved the *Common Criteria Certification* for security.

Scanning capabilities

Lexmark provides a variety of scanning options, in monochrome and color. It is a fast, convenient way to communicate with colleagues and customers by scanning documents to your e-mail, desktop, network folder or FTP.

Scan Preview - Preview document prior to sending to ensure accuracy.

Scan to E-mail - With a single touch of a button, easily scan your paper based documents to e-mail accounts or groups. Seamlessly integrates into your corporate LDAP directory.

Scan to Desktop - Multiple ways to scan documents to a PC/desktop. The scanned file can be sent to an individual workstation via web browser, ScanBack utility, local or network TWAIN driver or scanned to network embedded solution.

Scan to FTP - Ideal way to archive and share large files with multiple people.

LDAP/Active Directory can be used by the MFP to authenticate user credentials, and to look up e-mail or fax numbers from the corporate directory during scan-to-e-mail or scan-to-fax operations.

Quickly and easily scan and archive documents in a wide variety of file formats including: JPG, TIFF and PDF.

Fast

Lexmark's workflow software enables your business to print less, move more information fast, and manage documents more effectively.

embedded Solutions Framework (eSF)

Lexmark's eSF gives you control to accomplish a variety of tasks from the multifunction device, through an intuitive Java®-based platform. We offer a wide variety of embedded applications such as:

The **Lexmark Document Solutions Suite** is a set of powerful applications that will enable execution of advanced workflow solutions like form merging, document capturing and on-demand printing.

Scan to Network - Users can scan documents to a shared network folder or to a desktop with the click of a button, saving space on the server and improving productivity.

Card Copy - This innovative feature helps save paper and time by copying both sides of an insurance or ID card onto the front of a single sheet of paper.

Customer Support Application - An icon on the e-Task interface will link directly to your dealer's contact information for quick and easy service and supplies calls.

Remote Copy - Users can scan a document directly from the MFP to be printed on a remote Lexmark color printer.

Workflow

The eSF allows applications to run directly on Lexmark's multifunction devices. The flexible architecture of the Lexmark eSF allows:

- Tailored solutions
- Application solutions for your entire fleet of devices
- Easy downloads to the device
- Straightforward scanning to many locations

Embedded solutions help your multifunction device through:

- Lowered initial hardware cost
- Easy implementation
- Uncomplicated support
- Increased security

Feature Gallery

Standard Features

1

Convenient USB Port

Use a USB drive at the multifunction device to scan to and print from a wide variety of file types, including PDFs.

2

Powerful Scanner & ADF

Up to 55 ppm mono and 27 ppm color duplex scanner with up to 75-sheet capacity for hands-free fax, copy and scan.

3

Robust Paper Capacity

Supports up to 3,100 sheets from five input sources.

4

Fax

Work seamlessly with fax functionality from the device, desktop or network.

5

Intuitive Operator Panel

Equipped with the customizable e-Task interface and simple number pad.

6

High-Quality Printing

Receive professional results with PostScript®-ready, PCL 6 emulation and PDF printing.

Optional High-Capacity Feeder and Finisher

Product Configurations
